Project Details:

Project Title: Mountain Ungulates of the Greater Yellowstone Area Book

Project Type: Research Summary/Education

Affiliate: WGFD

Project Location: Wyoming, Montana, Idaho

Project Description: This is a popular interest book that summarizes the 10-year effort to monitor bighorn sheep and mountain goat populations in the Greater Yellowstone Area, an effort led by Montana State University that includes Yellowstone National Park, Grand Teton National Park, the Wyoming Game & Fish Department, Montana Fish, Wildlife and Parks, Idaho Fish and Game, the Shoshone, Bridger-Teton, Caribou-Targhee, Gallatin-Custer National Forests.

Funding would assist with publishing and distribution of the book (authors/editors received no compensation for their efforts). Many funding sources made this work possible, and the Wyoming Wild Sheep Foundation was a key supporter from the very beginning. It is a great opportunity for people to see the kind of work supported by WY-WSF.

Project Problem: Condensing and sharing research findings with a wider audience in an easy to read format.

Problem Solution: The draft of this 10 chapter book has been completed and the manuscript has been sent for external review. Identification and gathering of photographs is occurring. Completion date of October 1, 2020.

Biography Of Applicant:

Name: Doug McWhirter

Address: [420 North Cache](#)

City: Jackson

State: WY

Zip: 83001

Phone: 3072488151

Fax:

E-mail: Doug.McWhirter@wyo.gov

Current Member: Yes
